

# PLANTSKIRT SMALL

*Pot, tray, fittings, and pipe, only incl. with PlantSkirt Complete Kits. Substrate not incl.*

**IDEAL FOR GROWING IN OPEN TRAYS**

**FOR GARDEN TRAYS OF 60CM / 23" SQ**

**FOR POTS WITH A MAX DIA. OF 40CM / 15.5"**

**PREVENTS RISK OF ALGAE GROWTH IN OPEN TRAYS**

**STOPS EVAPORATION OF NUTRIENT SOLUTION**

**REFLECTS LIGHT BACK ONTO PLANTS - ENHANCING GROWTH**

**KEEPS TEMPERATURE STABLE IN NUTRIENT SOLUTION AND SUBSTRATE**

AutoPot PlantSkirt is a heat and light-reflective shield that protects nutrient solution and substrate from temperature fluctuation, algae and debris when growing in open trays.

Paired with an AQUAvalve it provides a solution for growing even the largest of plants with AutoPot Watering Systems.

Above: PlantSkirt Small can be used with 60cm / 23" sq trays.

Pot, tray, fittings, and pipe, are only incl. with PlantSkirt Complete Kits. Substrate not incl.

- 1x 9mm / 3/8" Tee Connector

- 1x PlantSkirt Small

## Using PlantSkirt with AQUAvalve<sup>TM</sup> and garden trays

<p><b>1</b></p>	<p>Position your pot centrally in your tray.</p> <p>Fill pot with medium and pot up plants. Water through pot and allow to drain.</p>	<p><b>2</b></p>	<p>Place AQUAvalve PotSock onto the tray - gold face out.</p> <p>Place metal plate into PotSock.</p>
<p><b>3</b></p>	<p>Remove AQUAvalve collar.</p> <p>Take one end of Elbow Bar assembly and push 9mm / 3/8" pipe through collar and attach to AQUAvalve nozzle.</p> <p>Rescrew AQUAvalve collar - <b>DON'T</b> overturn...when you feel it grip <b>STOP</b></p>	<p><b>4</b></p>	<p>Place connected AQUAvalve onto plate inside the PotSock.</p> <p>Fit AQUAvalve Cover.</p> <p>Connect the AQUAvalve to your water supply.</p>
<p><b>5</b></p>	<p>The PlantSkirt is secured around the middle of the pot and the outer rim of the tray.</p> <p>Secure in place with the PlantSkirt's drawstrings.</p>	<p><b>6</b></p>	<p>Once the drawstrings are pulled tight the PlantSkirt provides an effective seal preventing light and debris from entering the tray.</p>
